Editors' Correspondence.

[From our Baltimore Correspondent.] BALTIMOBE, April 14-10 p. m. An article in the Sun of this morning, which is founded doubtless upon good authority, gives forth the welcome intelligence that a very large proportion of the Whig members of Congress are favorable to holding the National Convention in Baltimore. This is as it should be. There cannot be even a doubt that the City of Monuments is the place. Everything is in its favor-nothing against it.

Miss Charlotte Cushman is drawing full and fashionable houses at the Holliday street. Her Meg Merriles, last night, was the most triumphant and startling performance I have ever seen. It was a perfect intellectual triumph. The entire audience was held in breathless admiration. She is, beyond all question, the greatest actress of the age, especially in the character alluded to. I have been long accustomed to theatres and good acting, but last night capped the climax. She made my very blood run cold. To-night she played Mrs. Haller, in the Stranger, to a full house. She goes to Washington, after closing her engagement here.

Mrs. Sinclair-Mrs. Forrest that was-per formed, or rather read, again to-night to a full audience. I cannot and will not risk my reputation for truth in saying she is anything more than a very ordinary reader. She certainly mistakes her calling when she takes to the stage. There are clever points about her, and that is all. Her voice is not, and never can be, suited for public reading. I regret that I can say nothing better for her.

We hear but little general news to-day worth writing about. Business steady; flour dull; grain unchanged. All descriptions of provisions advancing rapidly; prices now very high. CHESAPEAKE.

[From a Portsmouth Correspondent.]

PORTSMOUTH, April 12. The weather hereabouts, since the opening of the present month, has proven very fickle, though on this day the twelve borrowing days of March cease to exist, and we may hope for settled pleasant weather.

The newly-appointed commandant of the Gos port navy-yard and station, Captain Samuel L. Breese, arrived in the steamship Roanoke, from New York, last Sunday afternoon, in the very short run of twenty-three hours. Captain B. entered upon his duties yesterday (Monday) morning, and was escorted around that vast establishment, through the various workshops, storehouses, &c., by Commander R. B. Cunningham. who has been acting-commander ad interim since Commodore Stringham left us, to enter upon his duties elsewhere. The master-workmen and heads of departments were severally introduced to Captain B.; and from the short interview that passed, they have expressed themselves as being much prepossessed by his unostentatious manners. frank and communicative conversation, and business-like mien. Success to his administration.

Calvin Brown, esq., has been appointed civil engineer to this navy-yard, and his arrival is momentarily expected. This gentleman, it is said, hails from Boston, and, if fame reports correctly, is an adept in his profession. Yet it is problematical whether the interests of government would be better promoted under his management than under that of the present faithful, energetic, accomplished, and efficient gentleman, Robert T. Scorr, esq., who has been acting in this capacity during the past two and a half years. His topographical drawings and sketches are beautiful to behold, and, united with a practical knowledge and business-like application, have elicited the admiration and approval of connoisseurs in that department of mathematical science. Mr. Brown will find in Mr. Scott a valuable adjunct and a man reliable in any position coming within the sphere of business to which he may be assigned.

The engine of the Powbatan was put in opera tion on last Saturday, and is said to have worked very well. More anon. JUVENIS.

A MONSTER LAKE FISH .- The Maumee Times gives the most astonishing "fresh water fish story" that we have ever heard. The monster was caught in the Maumee river, with a seine, and took two horses and thirty fishermen to draw it in. The Times says it was the largest fish ever taken in those waters. It measured, from the tip of its nose, or mouth, to the end of its tail, twenty-three feet four inches; and in circumference, in the largest place of its body, it was four feet nine inches. On opening it, it was found to contain in its stomach two goodsized muscalonge, about half a barrel of pickerel. together with a very respectable complement of the smaller members of the fluny tribe. There were also found in it two joints of stove pipe, a pair of old boots, and the remnant of an Indiarubber overcoat.

The forgery of the letters of Shelly, which excited such a sensation in the literary circles of London, when exposed last month, has at last been traced to its proper source. Mr. White, a bookseller of Pall Mall, has announced that he purchased the letters from an adventurer, calling himself George Byron, and pretending to be a natural son of the great poet. If we mistake not, this accomplished young gentleman figured not many years ago in New York, where he proposed to give to the world a series of inedited letters and MSS. of the author of Childe Harold, after having failed to swindle any of the English publishers with the fraud.

Daily Zion's Herald

FOR THE APPROACHING GENERAL CONFERENCE! I N accordance with what is believed to be a general wish and expectation of the Methodist public, the proprietors of the Herald have determined to issue, during the approaching General Conference in Boston, a DAILY ZION'S HERALD.

approaching General Conference in Boston, a DAILY ZI-ON'S HERALD.

The main design will be to publish the proceedings and documents of the General Conference. Especial pains will be taken, therefore, to give full and accurate reports of the sayings and doings of this important body, and of the various anniversary meetings that may occur during the session. The editor intends continuing his "Characteristic Notes," which were received with so much favor in 1844 and '48. These "Notes," besides observations on the proceedings of the Conference, will embrace Personal Sketches of some of its principal members and visiters.

TERMS.—For a single copy for the session, \$1. The Daily will be issued at least five weeks, or until the adjournment of the Conference. The first number will be issued on Monday, May 3d, and will contain the first day's proceedings of the Conference, a complete list of the Delegates, &c.

WILMINGTON BOARDING SCHOOL
FOR BOYS.—This institution is situated in one of the healthlest parts of the city of Wilmington, entirely beyond the settled portions of the town. The uniform healthfulness of the location may be inferred from the fact that, since the establishment of the School, about twenty-eight years, very few cases of serious indisposition have occurred among the pupils, and not a single death either here, or from diseases contracted while here.

The course of instruction includes, besides the ordinary English branches, Natural Philosophy, Chemistry, Physiology, History, Rhetoric, the various branches of Mathematics, and the Latin Greek, and French Languages. Particular attention is paid to the higher Mathematics and their application to Mechanics and Enginesting; the latter and Surveying are taught practically by field operations, with the use of appropriate instruments. Lectures on Natural Philosophy and Chemistry, in which all the important principles are illustrated by experiments, are regularly delivered before the students.

As the object is to make the instruction as thorough and practical as possible, no expense has been spared in providing suitable apparatus. It is believed that, in this respect, the Institution will compare favorably with any similar one in the country. A carefully selected library, of more than one thousand volumes, containing works on the various branches of Literature and Science, furnishes ample reading matter, while a Laboratory, fully supplied with apparatus and tests, contains all that is necessary for practical instruction in Chemical Manipulation.

The school year commenced on the third Second-day (Monday) of the Ninth month, (September,) and is divided

with apparatus and the practical instruction in Chemical Manipulation.

The school year commenced on the third Second-da (Monday) of the Ninth month, (September,) and is divided into four quarters of eleven weeks each, leaving a vacation of two months, from about the middle of the Saventi month (July).

HUNT'S MERCHANTS' MAGAZINE D COMMERCIAL REVIEW. Established, July, 1889,

BY FREEMAN HUNT, EDITOR AND PROPRIETOR. THE Number for December, 1850, completed the twenty-third semi-annual volume. The work has been enlarged since its commencement in July, 1839, and each volume now contains more than seven hundred large cotave pages. A few complete sets of the Magazine may be obtained at the publisher's office, 142 Fulton street, New York, neatly and substantially bound, for two dollars and a half per volume.

The following are a few of the many commendatory let-ters received by the editor of the Merchants' Magasine from distinguished statesmen: Letter from the Hon. Henry Clay.

Letter from the Hon. Henry Clay.

ASHLAND, 20th July, 1849.

Dear Sir: I wish to express to you the gratification I derived on receiving the July number of the Merchante Magazine and Commercial Review, from viewing your portrait in the beginning, and from reading your address to your friends at the end of it. When we feel under obligations to those who have contributed to our information and amusement, we are naturally desirous to possess all the knowledge of them, of their appearance, of the features of their countenance, and of the character and habits of their mind, which we can acquire. You have placed your numerous readers (at least you have me, if I may not speak for them) under those obligations; and the number of your valuable work now before me, in some degree, satisfies the desire to which I have alluded.

I have become quite familiar with the Magazine and Review, and have no heastation in expressing my humble opluion that it is eminently entitled to the public regard and support. It collects and arranges, in good order, a large amount of valuable statistical and other information, highly useful not only to the merchant, but to the statement, to the cultivator of the earth, to the manufacturer to the mariner, in short, to all classes of the business and reading community.

Entertaining this opinion, I am glad that thes been, and

reading community.

Entertaining this opinion, I am glad that it has been, and hope that it may continue to be, liberally patronized.

Offering you cordial assurances of my esteem and regard, I am truly your friend and obedient servant, Freeman Hunt, esq.

H. CLAY.

Extract of a letter from Hon. Millard Fillmore. "I have read it (Merchants' Magazine) with a good deal of attention, and have no hesitation in saying that I think it one of the most valuable periodicals that was ever published. To the merchant it seems quite indispensable, and to the statesman and man of general information almost equally desirable. It is a grand repository of useful facts and information, which can be found nowhere so well digested and so accessible as in these numbers. I only regret that I do not own the whole work."

Letter from the Hon. Thomas H. Benton.

Washington City, April 20, 1849.

Mr. Freeman Hunt.—Sir: I owe you many thanks for the opportunities I have had to read the Merchantz' Magazine, and have found it in reality to be a magazine, and that well replenished, of all the useful matter which the title would imply, and presented with a fullness and clearness which delights while it instructs. It is, in fact, a merchants' magazine in the large acceptation of the term—merchants who go between nations, whose large operations bring many departments of knowledge, and a view of the state of the world, into daily requisition. But it is not the great merchant only, but the one of more modest, but, nevertheless, of most useful operations—the merchant of the interior also—who will find this magasine to abound with the information the pursuit of his business and the elevation of the mercantile character requires. Nor is its utility at all confined to merchants, but extends to the legislator and diplomatist, and to all who are charged with managing the affairs of the uation. For myself, I have found it most useful to me in my senatorial labors, and have been in the habit for many years of carefully consulting it.

Yery respectfully, sir, your obedient servant, THOMAS H. BENTON.

Letter from Hon. Wm. H. Seward.

My Dear Sir: Have the goodness to place my name en your list of subscribers for the Merchants' Magazine. I regard it as an invaluable work for the use of all who would understand not merely commercial operations in this extending country, but the fiscal and commercial questions involved in the administration of the government.

A No exhibitor of Agricultural Implements at the above named Fair, having received one-half the amount of premiums awarded us on the different kinds of Implements and Machines, it is conclusive evidence that ours were considered the best and most valuable on exhibition.
At the great Fair of the Maryland Institute, for the promotion of the Mechanic Arts, held in Baltimore in October and November, 1850, the first premium (a heavy Silver Medal) was awarded to Ezra Whitman, jr., for the largest and best display of Agricultural Implements. Also first premium (another Silver Medal) for his Improved Wrought Iron Rallway Horse Power, which was made for embilition at the World's Fair, in London, in May, 1851.
Our stock this season will be the largest ever offered in this city, and probably the largest in the world, consisting of more than 8,000 Ploughs, 250 Threshing Machines, 1000 Wheat Fans, 1000 Corn Shellers, 500 Straw Cutters, 500 Cultivators, Reaping Machines, Wheat Drills, Orn and Cobton Presses, together with every article which a farmer or planter could wish in the prosecution of his pursuits; all of which will be sold on reasonable terms, at wholesale or retail.

A line of omnibuses runs from the steamboat landings in Buffalo to the springs every ten minutes.

The house and grounds are near the extensive and beautiful green-houses and nurseries of the Messrs. Hodges & Bryants; and the scenery in all directions is unsurpassed, as regards either variety or beauty; embracing points of view, from which may be taken in at a glance the broad expanse of Lake Erie, the Niagara flowing majestically towards the Falls, extensive forests, and the "Queen City of the Lakes," with its moving panorams of steamboats and ceaseless enterprise.

The water, taken immediately from the celebrated "Cold Spring," is unsurpassed as regards coldness and purity, by any in the United States. The house, recently erected at a cost of about seven thousand dollars, has been fitted up in a neat and elegant style, at considerable extra expense, and is sufficiently capacious to accommodate sevently-five patients.

of the various forms of disease, and constructed on a scale not inferior to those of any other establishment in this country.

An enlightened public sentiment has everywhere repudiated a reckless use of drugs in the treatment of disease; while intolerable sufferings and broken constitutions have imperatively demanded "Reform." A return from a wide and fatal departure from the simplicity of Nature's laws is called for, alike by a rational love of happiness and the deplorable exigencies of our condition. Hydropathy, or a scientific use of water as a restorative and curative agent, is a practical substitution of a simple and remarkably efficacious mode of curing the sick; for that system of drugging, depleting, and cauterising, which, in obtaining the mastery over disease, too frequently places the patient beyond the reach of further annoyance. The success of the various Water Cure establishments in this country, to say nothing of any other, has fully confirmed the hopes of the early discoverers and promulgators of the great traths upon which the system is founded, and renders verbal communications unnecessary. It is deemed sufficient to say, that the "Cold Spring Water Cure" will compare favorably with any of the well-conducted establishments of a similar character, and will be found equal to the best, as regards the order, convenience, and desirableness of its arrangements. The institution is now open for the reception of patients, and in full operation.

TERMS. For board, medical advice, attendance and nursing, &c., from \$7\$ to \$14 per week, payable weekly, varying according to the room and attention required. Each patient will be required to furnish two linen aheeta, two cotton comforters, one woollen blanket, and four towels; or, where it is not convenient for the patient to furnish them as above, they can be supplied at the establishment by paying fifty cents a week.

All communications for medical advice should be addressed either to S. M. Davis, M. D., or to George W. Davi ?

MEDICAL DEPARTMENT.

The institution is under the general supervision of S. M. Davis, M. D., Professor of the Theory and Practice of Medicine in Central Medical College, and Geo. W. Davis, M. D., formerly of Dansville, N. Y., the resident physician, and is permanently associated with the before mentioned gentleman as counsel, and associate of the medical board of control. And the friends of the establishment deem it a matter of felicitation that the services of Miss Mary M. Taylor, a lady of high medical actainments, who has attended two courses of lectures in the Central Medical College, have been secured, and that female patients can at any time avail themselves of her invaluable aid and counsel.

The steward's department is under the control of a gentleman eminently qualified for that position; and unweared pains will be taken to have every thing appertaining to the establishment arranged on a plan, and conducted in a way, to ensure the comfort, and promote the health and happiness of all who may wish to avail themselves of its benefits. Baths of all descriptions, adapted to the cure of the various forms of disease, and constructed on a scale not inferior to those of any other establishment in this country.

An enlightened public sentiment has everywhere repu-
